

CONTRACT AWARDED FOR BIG WAREHOUSE

Deming Concern to Build a Large Structure For Mimbres Valley Growers.

The Deming office of The El Paso Herald is room 11, Mahoney block. Roy Reichert is agent and correspondent.

The Herald's distributor in Deming is the Laffler & Field Cigar and News Store. The Herald will be delivered to all parts of the city same night of publication, at 60 cents per month.

Deming, N. M., May 15.—The contract for the reinforced concrete warehouse for the Mimbres Warehouse and Growers' association has been let to the Deming Construction and Milling company. The building will cost \$55,000.

The warehouse will be located between Iron and Zinc streets on Railroad avenue along the S. P. track. The incorporation papers of the company are now in Santa Fe, being recorded. The warehouse will be completed within 35 days, in ample time to take care of the greater part of this year's crop.

Edmund Mitchell, special writer for the Sunset Magazine, is in Deming this week collecting material for the new Deming booklet which will be issued shortly. Mr. Mitchell is an author of reputation, and has a serial entitled "The Captain of His Soul" now running in the Sunset Magazine. He has also traveled for years the world over as an industrial writer. Mr. Mitchell expresses himself as pleased and surprised with the progress which is being made in the Mimbres valley, in the way of developing the immense natural resources of the section.

Word has been received here of the death of J. J. Bennett, former cashier of the Deming National bank. Mr. Bennett died at his home in Taylor, Texas.

L. Mattingly, of Courtland, Ariz., and Ethan Irwin, of Mooreville, Texas, are in Deming on business.

Herron Well a Good One.

The well of Wade Herron, four miles south of town is developing into one of the very best in the valley. It is now delivering 1000 gallons of water per minute, the lift being about 65 feet. The pump is operated by a 40 horsepower Reesman oil engine, which machine is guaranteed to operate on one and one-fourth bushels of crude oil per horsepower per hour. This oil is obtained from the Herron well, which is on this basis there is a great saving in the fuel cost of pumping. This is a new engine in this valley, none having been installed prior to this season. Mr. Herron is putting 60 acres in crop this year, and next year expects to reclaim his entire 160 acres of land. Mr. Herron is erecting a 5 room bungalow on his farm.

W. E. Foulke will this year have the first bearing commercial orchard in the vicinity of Deming. Four acres of this orchard is this year four years old. The trees, mostly peach, have splendid size for their age. Mr. Foulke is enjoying his orchard this year to 10 acres, and will have 40 acres in cultivation.

L. F. Milliken has left for Mission, Texas, on a business trip.

At a meeting of the board of directors of the chamber of commerce the board endorsed the resolutions offered by the Albuquerque chamber of commerce protesting against the bill now before the legislature giving high salaries to county officers. There is no such much routine business transacted.

Restaurant Destroyed By Fire.

The building belonging to H. O. Pattberg at the corner of Railroad avenue and Silver avenue and including the Georgia restaurant, has been burned to the ground. Mr. Pattberg had insurance of \$500 on the building and the proprietors of the restaurant had \$100 on the restaurant fixtures. The building was worth about \$500 and the fixtures about \$500. The cause of the fire is unknown.

It is now well known that not more than one case of rheumatism in ten requires any treatment. What, however, all that is needed is a free application of Chamberlain's Liniment and massaging the parts at each application. Try it and see how quickly it will relieve the pain and soreness. Sold by all dealers.

TWO MEXICANS SHOT BY ARIZONA MAN

One Was Shot While Advancing With Butcher Knife in Hand.

Bisbee, Ariz., May 14.—Last Monday morning George Feagles shot and killed a Mexican named Guadalupe Zammaron. Sunday night the Mexican is alleged to have gone to the ranch of Feagles, who lives near Bisbee, and bothered him with a drunken argument. Feagles at the time made the Mexican leave, but not until after they had engaged in a fist fight. The next day the two met again near the Feagles sheep pens, and Feagles had rifle in his hand, which he used when a second altercation took place.

Courtland, Ariz., May 14.—Octave Sanchez, a Mexican, was shot and killed here Monday evening by John Hallum, The Mexican, it is stated, started toward Hallum with a drawn butcher knife, which the latter fired the fatal shot. Hallum is a prominent miner, and was at his own cabin when the affray took place.

FARMERS TO BUILD BIG BROOM FACTORY

McNeal, Ariz., May 15.—The ranchers of this section have formed a pool and raised sufficient money to erect and equip a large broom factory. There has been much broom raised in this section of country for the past number of years, but the industry has not been profitable because the product had to be shipped so far. Now that this difficulty is obviated it is thought the industry will boom.

The Timidity of an Elephant.

Riding along a road in India I saw the following instance of a big elephant's timidity, which I venture to send you: The elephant, ridden by a mahout, was followed by a small Maltese terrier, which, intent on its own affairs, trotted before its master, making occasional instinctive investigations by the roadside after the manner of dogs without particularly noticing other travelers. From the first moment the elephant set eyes on the dog he never lost sight of him, turning from side to side always with an eye on the small animal and hurrying out of his way whenever he approached. The timidity of the one and the confidence of the other were irresistibly amusing.—London Spectator.

THE DEMING METHOD

From Santa Fe New Mexican.

Clovis won a victory in the house yesterday by securing a state normal school, as far as the say-so of the house is concerned.

At the same time, deserved or not, Clovis received a black eye. No town any longer desires to be advertised as a "wide-open" place, a community where vice is permitted to flaunt itself unchecked.

Clovis, no doubt, is neither better nor worse than other towns similarly situated, but it was correctly stated on the floor of the house that parents no matter how "liberal" they are about those things, will not send their children to school in communities in which job sells the ringing all the time; that people who have retired from work or business to spend their accumulated means do not select the wide open town as a place of residence and investment.

As Business Men View It.

Yet, there are hard headed business men, even in Santa Fe, who deceive themselves into believing that noise and gaiety are prosperity, are good for business, make a town rich and great and populous, which is all a ghastly mistake and just as absurd as the efforts of a man to lift himself by his bootstraps.

The old doctrine, that business men forget the first principle of political economy, that passing a dollar from hand to hand, does not create wealth, but that creating a dollar's worth of onions, or taking out a dollar's worth of ore, or putting a dollar's worth of improvement on some raw material, does create value. These same merchants argue that when John Smith instead of taking home his pay on Saturday night, bets it at the horse races, or spends it in the red light or over the bar, he is making business, but if he pays his grocer and butcher, contributes liberally to church, and saves a little each week eventually to buy a farm, that he is a tight wad, and no good to the town. Poor, deluded business men, who in their eagerness for the dollar that rolls, forget that wealth must be produced, before it can be spent, and that swapping dollars among themselves does not make a big, prosperous city, or wealthy merchants.

It was stated on the floor of the house yesterday and it was not denied or refuted by the friends of Clovis, that three years ago Clovis had 10,000 people; that today it has only 3,000 and that despite the fact that Clovis kept the joybells ringing day and night, was wide open from noon to midnight, and had really deceived itself into believing that this was the first requisite for town building.

The Example of Deming.

Contrast with the example of Deming. The Windmill city too, for many years prided itself on the fact that it was not hampered with Puritanical ideas; it too was wide open, with the roulette wheels, red lights, numerous saloons and all the concomitants of a so-called lively town. Yet, despite its liveliness, its lurid attractions, the clinking of dollars over the bars day and night, Deming was a dead town. It had three "main lines" of railroad, it had the trade of a vast extent of country, its business men

THANK YOU! SHE SAYS

Because, After Doctor's Medicines and Everything Else Had Failed, the Woman's Tonic Brought Long-Sought Relief.

Copper Hill, Va.—"I must thank you," writes Mrs. Ida Conner, of this place, "because you have done so much for me.

Cardui is a wonderful medicine, and it's a pleasure to write about the benefit received from its use.

Many years I had to stay in bed, sick with bearing-down pains and pain in my side.

I had given up all hopes of ever getting well, because doctors' medicines, which I took at different times, gave me no relief, nor anything else that anybody told me to try.

Finally, I began to take Cardui, the woman's tonic, three times a day.

After a few doses, the pain in my side grew less, then quit, and it hasn't come back since.

I feel like a new person now, and cannot help but recommend such a good medicine."

There is no reason why any woman should suffer from pain, such as Mrs. Conner describes.

Cardui is a remedy for just such conditions. Thousands of women have found relief in its use.

You will find relief, too. Don't give up! Give yourself one more chance.

Take Cardui.
